CORPORATE MEMBERSHIP

Dear Leaders, HR, and Staff:

After this past year, getting your employees health back on track is more important than ever. A great first step to a healthier workplace is offering a YMCA membership as part of your employee benefit package.

Workers who exercise regularly tend to have enhanced creativity and prolonged mental stamina while at work.¹ As little as 30 minutes of physical activity several days a week can have a significant positive impact on workers' physical and mental well-being. In addition, many employees view health promotion programs as an added perk that makes them feel valued and appreciated by their employer, decreasing employee turnover and reducing the time and money needed to recruit, hire and train new workers.

The Tuscarawas County YMCA offers a Corporate Membership Program to help your employees get the support they need to achieve their health goals and save money. Good health is good business! Ready to hear more? We would love to share all the great benefits the Y offers to you and your staff. The Y isn't just a building. We're people from all backgrounds and walks of life who come together to support each other and strengthen our community.

Call Ashley today for more details and corporate plans or Kathleen to set up an onsite visit/tour.

Sincerely,

K. Johnson
